

# Health & Safety Policy Statement

## Statement of Intent

GRD regard the health & safety of our employees and others affected by our work activities as of paramount importance.

### Our statement of general policy is:

- To provide and maintain a safe place of work and healthy working environments for employees and others under our control.
- To ensure appropriate preventative measures are, and will continue to be, implemented following the identification of work related hazards and assessment of the risks associated with them.
- To recognize the importance of consultation with employees and others under our control in relation to health and safety issues.
- To ensure that accident and ill health prevention is provided the highest priority
- To investigate lapses in health and/or safety performance and implement remedial actions to prevent, so far as is reasonably practicable their recurrence.
- To provide employees with relevant and adequate training, information and instruction to enable them to carry out their work activity competently and in a safe manner.
- To so far as is reasonably practicable effectively control the health and safety risks arising from our work activities and in co-operation with employees, contractors, clients and any other relevant party.
- To provide quality and effective supervision of all employees, contractors and others under our control.
- To review this statement as a minimum annually and as often as may be appropriate.
